## **Absolute Environmental Completes Multi-Million Dollar Abatement for Brigham & Women's Hospital/Partners Health Care**

Absolute Environmental is happy to announce the completion of a multi-million dollar asbestos and hazardous materials abatement including PCB's, lead paint and bio-hazards from 6 different buildings encompassing over 500,000 square feet.

The work was accomplished in 3 months and involved in excess of 60 laborers per day with activity in several buildings concurrently.

The asbestos component involved a multitude of different materials including over 30,000 linear feet of pipe insulation and 40,000 square feet of various flooring materials.

The PCB component of the project involved over 1,000 windows with a dual component of asbestos and PCB caulking. This work was accomplished with HAZMAT trained workers and involved work plan preparation and approval by the EPA.
